## PERSONAL PROJECTS

### CODEHUB E-TUTORIAL WEBISTE

september 2021

Developed and designed an E-tutorial website for learning full-stack development using ReactJS, Figma, TailwindCSS and Firebase. It provides Roadmap, free E-books, online tutorial lectures and fun quizzes to learning students.

### E-COMMERCE WEBISTE

August 2021

Designed an E-commerce website along with a team of 6 developers. Created a Figma design for the website according to the basic rules of design.

### WHITEBOARD

Jul 2021

Developed a white board using vanilla JS. It has features like color change, erasing, undo, save, line, shapes and delete the board.

### STAR-WARS AIMBOOSTER

Jun 2021

Developed a Aimbooster game using vanilla JS. It is based on shooting as many targets in the stipulated time. It has features like score display and storing high scores on local storage so you don't lose any highscore by refreshing the page.

## PROFESSIONAL DEVELOPMENT
